Press Release: Wendy Valero arrested for Risk of Injury to a Minor and Sexual Assault 2nd

On June 14, 2016 the Middletown Police Department initiated an investigation into the alleged inappropriate conduct by a Dattco bus driver with a fourteen year old male student/victim.

Valero was the bus driver for the victim for approximately three years, over the past year they became “friends” on various social media sites. Valero and the victim would message each other. Valero and the victim exchanged inappropriate pictures.

In June of 2016, after the school year ended, Valero arranged to bring the victim to her home. Valero allegedly exposed herself to the victim and engaged in sexual activity.

Valero has no association with the Middletown School system at this time.

The Middletown Police Department would like to remind all parents/guardians to monitor their children’s activity on the computer, cell phone and/or tablet. Monitor and have access to their social media accounts. Based on their age and maturity level limit what accounts they have access to and the amount of time they spend on them.

Below are some of the popular social media sites that are being used today.
