

## **Honeywell Energy Conservation Project**

Through our Energy Performance Contract with Honeywell, many energy-conserving upgrades to city buildings have been completed. These include energy efficient lighting, controls to make our heating, ventilation, and air conditioning systems operate more efficiently, weatherization, boiler upgrades, solar photovoltaic panels, solar hot water, and variable speed motors.

The sites included in this performance contract include:

- City Hall
- Russell Library
- Police Headquarters
- Fire Headquarters
- City Yard
- Cross Street Fire and Dispatch Center
- Parks Building
- Palmer Field
- Water & Sewer Building
- Water Pollution Control Authority
- Roth Water Treatment Plant
- Higby Water Treatment Plant
- Water and Sewer Pump Stations
- Remington Rand Building
